

Introduction

Segaverse is the main utility token of the Decentralized Game-Fi universe to gather all the gamers on board. The Project is aimed to launch the world's biggest NFT 3D studio to bring a great revolution in P2E.

Vision:

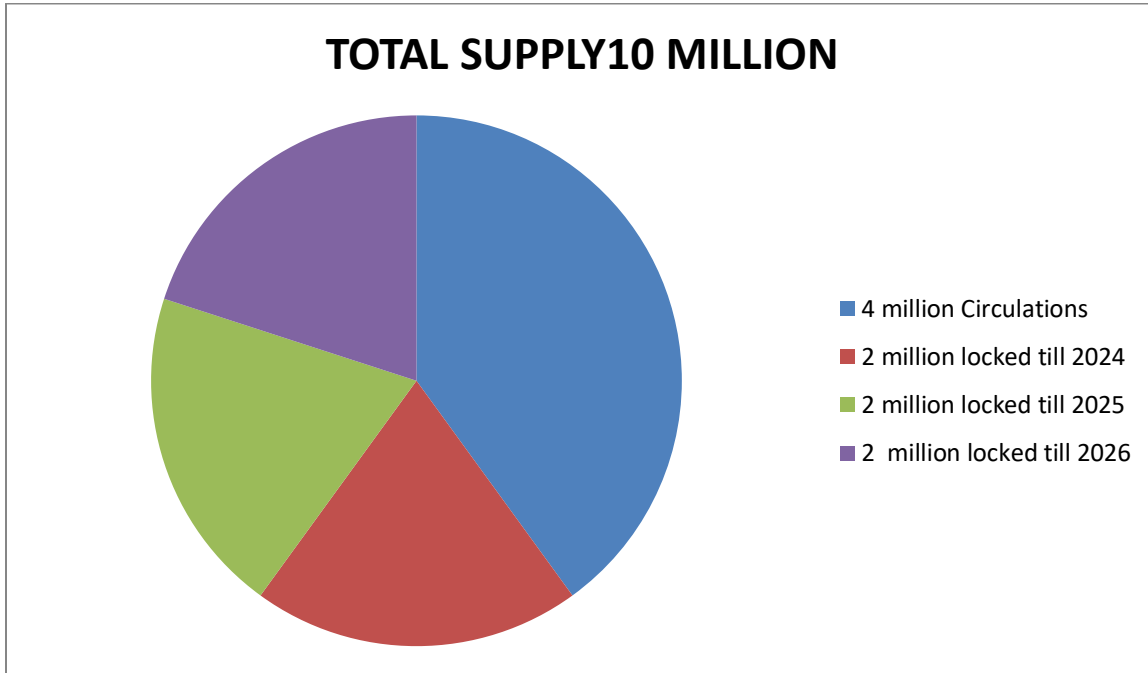

The primary goal of Segaverse is to offer wide range of games like Fighting battle Arena, Mysterious games, Puzzles games, board games and also NFT based football & cricket leagues for all the age groups, where gamers can unlock their favorite games by using "SEGA" token as a platform key.

Investors Protection:

Segaverse Contract has no minting function and its maximum supply limit is 10 million, Due to its "limited fixed" supply and special use case on Segaverse platform as the "main utility token" the investors are always in safe heaven.

Supply:

10 Million Total Supply
4 Million Circulations
6 Million Locked
